Supernova 3 way splitter  
Ø90 H70

A cost effective way to replace a 150W incandescent lamp with 3x LEDs.

Requires no additional wiring and takes just seconds to fit, can be used in floor/table lamps too

Fits LI & GU10 caps, and also B22/BC & E27/ES caps with an LI adaptor (sold separately)

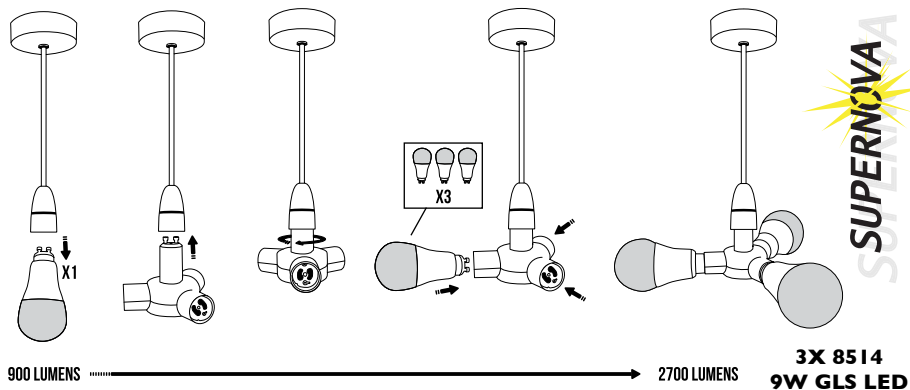

Perfect for university accommodation, social housing, care homes and property development.

Wide range of compatible LED lamps available which are guaranteed for 2 years upon registration.

## LI LED lamp range...

Supernova is compatible with all tp24 LI LED lamps, the most frequently used combinations are shown below with measurements in case you want to use them with a shade. Visit [tp24.com](http://tp24.com) to view the full LI lamp range.
